RAHUL SINGH

Full-Stack Developer · Vue.js · Node.js · MariaDB · ERP & LMS

rahulkarakoti28@gmail.com · +91 9711644826 · New Delhi, India · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Full-stack developer with **1 year of hands-on experience** (6-month internship + 6 months full-time) building production-grade ERP, CRM, and LMS platforms. Worked end-to-end across frontend, backend, and database layers using **Vue.js 2, Nuxt 2, Vuetify 2, Express.js, and MariaDB**. Gained real-world exposure to multi-tenant SaaS architecture, RBAC with entity-specific permissions, banking API integrations (ICICI), WhatsApp Business API, and AI-generated reporting. Eager to grow into a mid-level role and contribute to complex, high-impact product development.

TECHNICAL SKILLS

Frontend	Vue.js 2, Nuxt.js 2, Vuetify 2, React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, WebSockets
Databases	MariaDB, MongoDB, IndexedDB
Payments	ICICI Bank API, Payment Gateway Integration, Subscription Billing
Auth & Arch	JWT, RBAC, Entity-Specific Permissions, Multi-Tenant, Org Hierarchy
Integrations	WhatsApp Business API, Offline-First / PWA
Languages	JavaScript ES6+, TypeScript, HTML5, CSS3
Tools	Git, Postman, VS Code, Chrome DevTools

EXPERIENCE

Full Stack Developer • **Site Guru** *(Promoted from Intern)* Oct 2025 – Present

- Promoted to full-time after internship; took increased ownership of feature development, architecture decisions, and end-to-end delivery across multiple products.
- Built the **Indicava School SaaS ERP** — a multi-tenant platform covering academics, admissions, fee management, attendance, timetabling, and administration.
- Integrated **Razorpay and ICICI Bank API** across both Indicava ERP and bestPrep LMS for fee collection, course enrollment billing, subscription management, and real-time payment status tracking.
- Designed **RBAC with entity-specific permissions** and organizational hierarchy — fine-grained access control across roles, departments, and branches.
- Built a **CRM with WhatsApp Business API** integration for automated notifications, lead tracking, and customer communication workflows. subscription plans, and payment gateway configuration.
- Implemented **IndexedDB-based offline-first** data handling for reliable UX in low-connectivity environments, with automatic sync on reconnection.
- Performed end-to-end **QA and testing** across all developed modules — functional testing, edge case validation, and bug triage — ensuring production-ready delivery with minimal post-release issues.

Full Stack Developer Intern • **Site Guru** Jun 2025 – Oct 2025

- Contributed to frontend and backend development across ERP and CMS products under senior guidance; built REST API endpoints, reusable Vuetify components, and assisted in MariaDB schema design and query optimisation.
- Worked on the initial architecture of **bestPrep LMS** — led development of the courses, test series, live class, and quiz modules from scratch through to near-production readiness.

PROJECTS

Indicava — School SaaS ERP *2025 – Present*
Stack: Nuxt 2, Vue.js 2, Vuetify 2, Express.js, MariaDB, WebSockets, ICICI Bank API

- Multi-tenant school management platform with admissions, academics, attendance, timetabling, **fee collection**, and **RBAC with entity-specific permissions**.
- Banking module with real-time fee collection, payment ledger, and automated reconciliation.
- **AI-generated insights**: student performance analytics, fee defaulter reports, attendance trends, and academic progress dashboards.
- Real-time events via **WebSockets**; **offline-first** support via IndexedDB for reliable usage in school environments with patchy connectivity.
- **Super-admin panel**: tenant management, module activation, billing, and gateway config.

BestPrep — LMS for Coaching & Schools *2025*
Stack: Nuxt 2, Vue.js 2, Vuetify 2, Express.js, MariaDB, WebSockets, Razorpay

- Built an end-to-end **Learning Management System** for coaching institutes and schools, supporting student management, content delivery, enrollments, and online payments.
- Developed a complete **assessment platform** with Test Series and Quiz Series modules featuring paper creation, scheduling, auto-evaluation, rank lists, leaderboards, and performance analytics.
- Implemented **live classes and role-based access control (RBAC)** with institute admin, teacher, student, and parent roles, including attendance tracking, recording access, and granular permissions.

EDUCATION

Bachelor of Computer Applications (BCA) Vivekananda Institute of Professional Studies, GGSIPU, New Delhi
